Generational Investment in Financial Training & Stewardship

Our Mission

At Peak Level Consulting our motto is that we help our clients maximize their potential, so we are dedicated to helping our clients grow as a result of their association with us. The Generational Investment in Financial Training & Stewardship (GIFTS) component of our Financial Empowerment Education system is a faith-based program that uses a scriptural approach to teach church congregations important financial principles to improve their own lives and improve the life of their church as well. This program focuses on helping people to take charge of their financial lives by educating them on how to responsibly manage their finances. We provide a solid foundation in financial education for the church membership through our series of seminars and interactive exercises to make the experience both informational and fun. In doing so we address the issues and needs of members both young and old.

Our Guiding Principle

Since our program is faith-based, we approach everything we present with the underlying principle of stewardship in mind. We believe it is critical to understand that financial prosperity comes with a great responsibility; therefore, it is each of our responsibility to share the blessings we have for the good of those around us.

The Benefits of a Financially Healthy Congregation

The Bible teaches us that our treasures are not to be stored up on earth, but in heaven. We are also taught that we should make the most of the blessings we have been given to glorify God. From a financial perspective, it is important to understand that prosperity in this life is not wrong in God's sight, but it is an opportunity to glorify Him by giving back from what you have received. In the end, a congregation that is financially healthy and stewardship mindful, brings prosperity to its church and its surrounding community. Let our system help your church and congregation be a more powerful resource for doing God's work.

Key Principles

- † **Stewardship**
Being responsible with all you have
- † **Spending Wisely**
Living today while making provisions for the future
- † **Maximizing Income**
Being smart so your resources go farther
- † **Asset Acquisition**
Living within your means
- † **Saving & Investing**
Putting your money to work for now and for later
- † **Giving Back**
Sharing what you have to build up God's Kingdom
